Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Apostolos et al (US 4,166,980).

Regarding claim 1, Apostolos teaches a method of identifying a signal type for an unknown signal (see abstract, see col. 2, lines 48-53) comprising the steps of: selecting the unknown signal of interest from a displayed spectral waveform for a specified range of frequencies (col. 1, lines 32-44); processing spectral data representing the unknown of interest to ascertain characteristics of the signal without demodulating the unknown signal (col. 6, lines 37-44) and from the characteristics of the unknown signal determining an identification of the signal type (col. 3, lines 56-59 and col. 13 lines 39-49).

Regarding claim 2, Apostolos teaches the determining step comprises the step of comparing the frequency of the unknown signal with a database of spectral assignments for a plurality of known signals to identify the signal type (col. 3, lines 43-51).

Regarding claim 3, Apostolos teaches a processing step comprises the step of estimating from the data an occupied bandwidth for the unknown signal as one of the characteristics for input to the determining step (col.5, lines 25-51).

Art Unit: 2684

Allowable Subject Matter

Regarding claims 4-6; please see reasons for allowance in office action # 2, dated 10/3/02.

Response to Arguments

Applicant's arguments with respect to claims 1-3 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
